TouchSystems' M5-E 17" Touch Screen Monitor claims an eco-friendly design. It consumes less energy, and it features a lessened mercury content. It also is accompanied by a carbon footprint meter and an Intelligent Power Manager (IPM) system. Besides its emphasis on green technology, the monitor boasts a fast and accurate touch response time and supports multiple operating systems.

Medical

The two-step ECO Mode™ saves power, reduces heat, and extends the life of the display.

Corporate

The monitor's dual-input technology bridges the gap between analog and digital systems.

Education

The monitor's Rapid Response technology provides a fast and accurate touch response as well as an almost undistorted viewing of high-speed, full-motion video.

Hospitality

The monitor supports various mounting options, conserving space while providing a focal point to almost any environment.
